## Release Conditions

Release conditions allow you to create a custom learning path through the materials in your course. When you attach a release condition to an item, user cannot see that item until they meet the associated condition. For example, you could attach a release condition to the second topic in your course's content area that would hide that topic until users viewed the topic before it. Or you create a condition that required users to view a content topic before gaining access to a quiz, or one that required them to post a message to a discussion topic before they could see a content module. If you attach multiple conditions to an item, users must meet all conditions before they can access the item.

Attaching a Release Condition

1. Locate the release conditions area, found in the item's editing mode.

2. Click Create and Attach.

3. Select the Condition Type and complete the Condition Details.
4. Click Create.

CLARION
UNIVERSITY

5. Choose whether access to the item is dependent on meeting all or any of your conditions.

6. Click Save.

**If you've already created a condition and want to apply the same condition to another item, you can quickly select the condition from a list of existing conditions in your course by clicking Attach Existing. This saves you entering the criteria a second time.

Removing Release Conditions

1. Go to the edit page for the item you want to remove the condition from and locate the release conditions area.
2. Click the Remove icon beside a specific condition to remove it, or click Remove All Conditions to remove all conditions for an item
3. Click Save
