About "Inside The Clarion University Libraries"

The Clarion University Libraries newsletter is published weekly when classes are in session.

Through *Inside*, we share information about our services and resources with the campus community.

Inside is best viewed with Microsoft Outlook.

However, you can read a PDF version of *Inside* online.

Access it through the Libraries' homepage at: <http://www.clarion.edu/115369/>

Faculty Tenure & Promotion Recognition Reception ... Today!

Please join the President, Provost, and faculty this afternoon at 3:00 p.m. in the Center for Academic Excellence on Level A of Carlson Library for the annual Faculty Tenure and Promotion

Recognition Reception. Ten faculty were promoted and ten faculty were tenured, effective with the fall semester. This afternoon they will be recognized for their achievements and honored with the selection of a book or other information resource added to the Libraries.

We look forward to seeing you this afternoon at 3:00.

What Is Fair Use? Copyright Web Conference Sessions

The University Libraries and the Library Science Department are sponsoring two copyright Web conferences this week. They will focus on copyright issues in the

higher education environment and will help faculty and others to better understand what constitutes fair use. Guidelines for educational use in various settings will be reviewed.

Win Cash and Gifts!

Coming Soon! Watch for your chance to win cash or gifts. All you need to do is participate in a survey conducted by the Clarion University Libraries. Keep an eye open for announcements. More details will be available in next week's issue of *Inside The Clarion University Libraries*.

Library Tip: Flash Drives, Batteries, and Supplies

You are at Carlson Library on a cold, rainy evening and you need a flash drive, battery, or other item. You don't want to go back home for it. What do you do?

Check out the vending machine on Level A, near the Computer Lab Print Station. It offers pens, mechanical pencils, markers, blue books, batteries, Tylenol, Vivarin, Halls Cough Drops, CDs, flash drives, and a number of other, useful items for sale. The machine is owned and operated by the campus Book Center.

Computer Tip: Arrow Keys Quick Tip

Here's a cool little arrow trick to try with word processing programs. The next time you are using your arrow keys to go from one area of a sentence to another (left and right arrows), hold down your **CTRL** key. Instead of moving one *space* at a time, you will go one *word* at a time.

If you are using the up and down arrows to go from line to line, holding down the **CTRL** key will make your cursor jump from paragraph to paragraph (well, from carriage return to carriage return anyway).

One last thing, if you hold down the **SHIFT** key while you do this (i.e. hold down **SHIFT + CTRL** at the same time), you select text as you arrow along.

This technique has been tested in MS Word, Wordpad, Notepad, and Open Office Writer, but it **should** work no matter what word processing program you use.
