About "Inside The Clarion University Libraries"

The Clarion University Libraries newsletter is published weekly when classes are in session. Through *Inside*, we share information about our services and resources with the campus community. *Inside* is best viewed with Microsoft Outlook. However, you can read a PDF version of *Inside* online. Access it through the Libraries' homepage at: <http://www.clarion.edu/115369/>

"Locating Sources" Workshop

Have you done research and not found enough sources at Carlson Library? If so, come to this session to learn how to search and find books all over the world. Learn how to get resources sent to you in days. Don't be limited to just using items held at your local library.

Act quickly, this is the last workshop of the series and it is **scheduled today!**

Tuesday, April 6, 3:00 in Carlson Library Room 201.

Comparative Business Stats - Electronic Access

Market Share Reporter presents comparative business statistics in a clear, straightforward manner, providing a detailed overview of international companies, products, and services. It includes more than 2,000 entries on a wide range of topics, from global positioning systems to laboratory equipment.

Entries typically include:

- Description (e.g., "Best Selling Digital Music Genres")
- Summary of the size of the market
- Breakdown of market share by percentage
- Complete source citation
- Subject categories
- SIC and NAICS code(s).

Historical data allows researchers to quickly track market trends over time, providing invaluable insight into virtually any industry.

Carlson Library has subscribed to the print edition of *Market Share Report* for years. Now, we have it available in electronic

form. Check it out.

Current Magazines & Journals Available

Have you missed reading the current issue of *People* or *ComputerWorld*?

Computer Tip: Automatically Select All Connected Cells

Whether it is for the purpose of setting a print area or changing the formula of a sheet, most users occasionally have a need to quickly select all adjacent cells. This can be done with three keys.

1. Click any cell within the range of cells to be selected.
2. Hold down the **CTRL** key while depressing the **Shift**

	A	B	C
1	Name1	Name2	Address
2	Heather	Mason	9769 Rickey Road
3	Eileen	Galvin	2003 Usagi Drive
4	Kim	Gordon	302 Matheson Street
5	Donita	Sparks	5723 Neely Street
6	Suzi	Gardner	2121 Carroll Street
7	Janis	Tanaka	221 Baker Street
8	Demetra	Plakas	112 Ocean Avenue
9			

and **8/Asterisk (*)** keys. (**CTRL + Shift + 8**) The entire range will now be selected/highlighted.
