### About "Inside The Clarion University Libraries"

The Clarion University Libraries newsletter is published weekly when classes are in session. Through *Inside*, we share information about our services and resources with the campus community. *Inside* is best viewed with Microsoft Outlook. However, you can read a PDF version of *Inside* online. Access it through the Libraries' homepage at: <http://www.clarion.edu/29806/>

### Welcome!

The University Libraries welcome all new and returning students, as well as faculty and staff. This is the first issue of our electronic newsletter for the new academic year. *Inside The Clarion University Libraries* is published on a regular basis to keep you up-to-date on Library services and resources.

We encourage you to visit the Carlson or Suhr Libraries and check out our Web pages at [www.clarion.edu/library](http://www.clarion.edu/library). We offer a wide array of services, many of which are available through the Web site.

In the coming weeks, we will be sharing information with you about our services and resources. Watch for our communications and please don't hesitate to contact us when you need information resources and support.

### Carlson And Suhr Libraries' Services

Carlson and Suhr Libraries offer a wealth of information resources in print, media, and electronic forms. Reference Librarians are available to provide you with personalized assistance. If you need to use a computer, the Libraries have plenty! Both libraries are wireless zones and notebook computers are available for loan. Visit the libraries or contact us for more information.

## Library Tip: ID Card

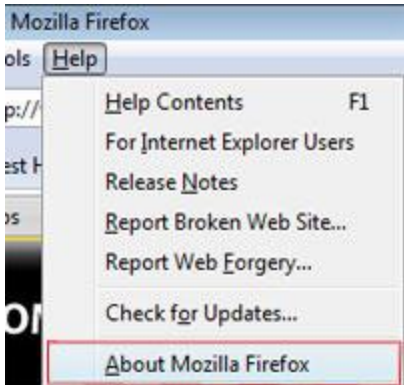

Don't forget to bring your Clarion University ID Card with you when you visit the Library. Your card enables you to check materials out from the Library, borrow a wireless notebook computer, and print from the computer labs when you have Eagle Dollars on your card.

## Computer Tip: What Version Are You?

Okay, here's a quick tip that may only apply to a few, but it's one that anyone can try. If you're ever in need of knowing the version number of a program (For example, 3.5.3 as seen below), then all you need to do is click **Help>About(Program name)**.

**Firefox**  
version 3.5.3

Most programs have this information readily available and it comes in handy if you're looking for a specific version or patch for a program. Give it a try in your favorite program today!

## Something To Think About:

*I'm a great believer in luck  
and I find the harder I work,  
the more I have of it.*

~ Thomas Jefferson
