Section 6. Areas for Improvement, Weaknesses, and/or Stipulations

Summarize EPP activities and the outcomes of those activities as they relate to correcting the areas cited in the last Accreditation Action/Decision Report.

Areas for Improvement related to Standard 1 cited as a result of the last NCATE review:

II.	Data on advanced candidates' impact on student learning were not available in all programs.	(ADV)
2.	Data on professional dispositions of advanced candidates were not available.	(ADV)

1. This has not been addressed at this time. The graduate committee is aware that this item needs to be addressed.

2. A committee looked at the use of dispositions assessments with advanced candidates. They made recommendations that will be put into place in order to be sure we have this data on all advanced candidates.

Areas for Improvement related to Standard 2 cited as a result of the last NCATE review:

1. The unit does not systematically assess dispositions for advanced programs. (ADV)

A committee looked at the use of dispositions assessments with advanced candidates. They made recommendations that will be put into place to be sure that dispositions for advanced programs will be assessed.

Areas for Improvement related to Standard 3 cited as a result of the last NCATE review:

1. Not all advanced teacher candidates have a required field experience in their program. (ADV)

This is an area that still needs to be discussed.

Areas for Improvement related to Standard 4 cited as a result of the last NCATE review:

Not all candidates have opportunities to interact with faculty from diverse

backgrounds.	(ITP) (ADV)
2. The programs do not have a systematic way to ensure that candid the opportunity to work with students from diverse populations.	dates have (ITP) (ADV)

1. We are continually working to attract faculty from diverse backgrounds. When searches are done we advertise in a variety of sources to help with this. Unfortunately at this time not much hiring has been done.

2. We define students from diverse populations broadly. Our candidates do not always have the opportunity to work with students from culturally diverse backgrounds but we do try to ensure that they have as much opportunity as possible to allow them the opportunity to work with students from other diverse populations. We are also offering an "urban experience" in Pittsburgh for students who are interested.

Areas for Improvement related to Standard 6 cited as a result of the last NCATE review:

1. The unit does not have adequate personnel to continue to implement the unit's assessment system. (ITP)

This continues to be a problem. We continue to try to get more personnel for this reason.

Section 7. Accreditation Pathway

Continuous Improvement. Summarize progress toward target level performance on the standard(s) selected.

We are working on securing an assessment system that will help us with the continuity of data collection and supports continuous improvement among the EPP.

Section 8: Preparer's Authorization

Preparer's authorization. By checking the box below, I indicate that I am authorized by the EPP to complete the 2015 EPP Annual Report.
