

Applied Behavior Analysis and Competent Learner Model Certificate

This 7 course online certificate program will prepare students to be certified Competent Learner Model (CLM) implementers and provide course work required to be eligible to sit for the Board Certified Behavior Analyst exam. This certificate will develop knowledge in the areas of curriculum design, Applied Behavior Analysis, professional and ethical standards, single subject design, and the CLM.

Outcomes:

- 1.) Students will master effective education practices for learners with challenging behavioral support needs.
- 2.) Students will use the most effective and efficient educational practices to develop learners' repertoires in areas of addressed needs by the multidisciplinary team.
- 3.) Data based evaluations of performance will be used to teach the effective practices to mastery and evaluate the level of competence in using these to develop the learner's repertoires.
- 4.) Students will learn to generate caring and supportive interactions.
- 5.) Mastery of these concepts will meet the Behavior Analysis Certification Board task list and Competent Learner Model Service Delivery Standards to promote the securing of these credentials.
