Jennifer Shultz was responsible for data collection and editing. Larry Meyers, was responsible for programming and production. John Maurer, State Capital Office Coordinator, and Tim Servinsky, Project Manager, provided data verification and editing assistance. Tim Schock, Graduate Intern, was responsible for map creation.

THE CURRENT AND FUTURE EDITIONS

The next County Data Book Series will be published in 2018.

The PaSDC continues to solicit your feedback. All suggestions and comments will be reviewed and taken into consideration for the 2018 edition.

County Data Books are available for each of Pennsylvania's 67 counties. They may be purchased in print or on CD-ROM in portable document file format (pdf). In addition, all Census 2010 Summary File 1 (SF1) data and American Community Survey data for Pennsylvania is available from the Pennsylvania State Data Center. Order by calling 717-948-6336, emailing pasdc@psu.edu, or visiting the website at PaSDC.hbg.psu.edu.

Please note percentages in this publication may not add to 100 percent due to rounding.

DATA NOTES

- For those municipalities crossing county lines, census data is provided for that portion of the municipality within the county.
- Decennial Census or Population Estimates program population and housing counts may differ from American Community Survey totals due to sampling and differing time periods.
- Please note percentages in this publication may not equal 100 percent due to rounding.
- A dash (-) may represent absolute zero, a percent rounded to zero, or in the case of American Community Survey tables, a data item that is not available due to small sample sizes.

INTRODUCTION

Allegheny County

Allegheny County was created on September 24, 1788 from parts of Westmoreland and Washington Counties, and named for the Allegheny River. Pittsburgh, the county seat, was named by General John Forbes in November 1758 in honor of William Pitt, a British statesman. It was incorporated as a borough on April 22, 1794, and as a city on March 18, 1816.

Allegheny County is located in southwestern Pennsylvania, near the commonwealth's western border with West Virginia. It is surrounded by Butler County on the north, Westmoreland County on the southeast, Washington County on the southwest, and Beaver County on the northwest. Comprised of 730.1 square miles, or 467,248 acres, it is ranked 29 out of 67 in land area in the commonwealth. Allegheny County is divided into 128 municipalities, including 4 cities, 82 boroughs, 26 first class townships, and 16 second class townships. It shares McDonald borough with Washington County and Trafford borough with Westmoreland County.

As of July 1, 2014, Allegheny County had a population of 1,231,255, reflecting a 0.6 percent increase since 2010. Municipalities ranged in size from 70 residents in Haysville borough to 305,412 residents in Pittsburgh city.

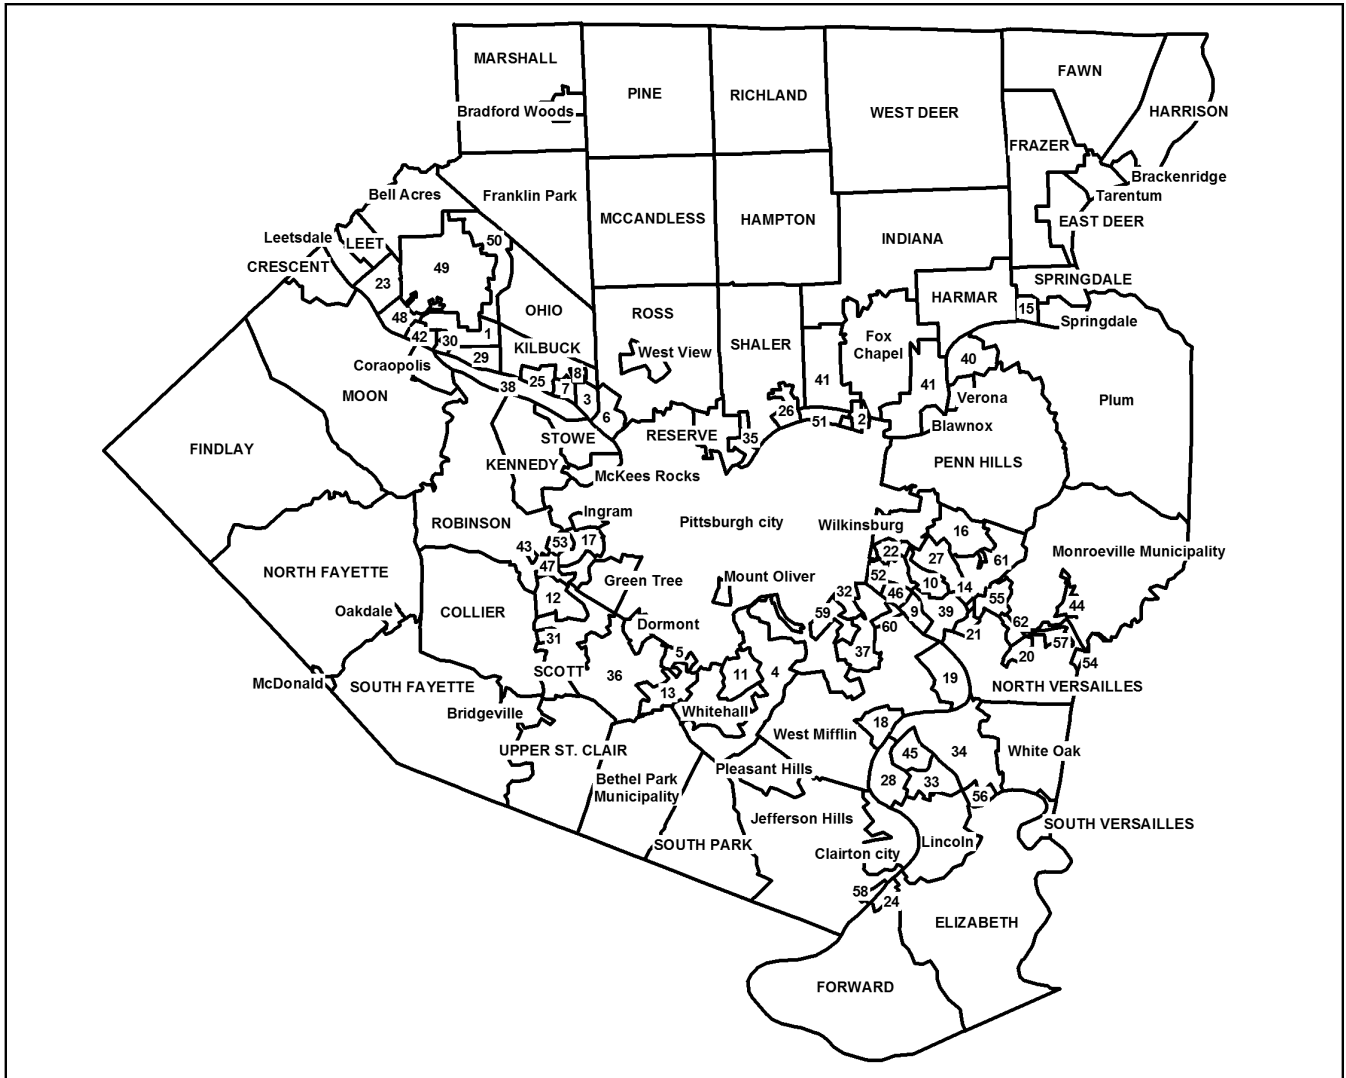

The county's median household income during the 2010-2014 time period was \$52,390, which was lower than the statewide median of \$53,115. The median housing value was \$124,800, which was lower than the statewide median of \$164,900. The top two employers in Allegheny County were UPMC Presbyterian Shadyside and University Of Pittsburgh.

Since the colonial beginnings of the country, Allegheny County has been a center for business and commerce. Easy access to all the nation's major transportation facilities, an abundance of natural resources, and a plentiful and dedicated workforce fueled the area's growth and early ascension in industry. Today, Allegheny County is home to at least seven Fortune 500 firms.

Major highways located within the county include U.S. Routes 19, 22, and 30; the Pennsylvania Turnpike (I-76); and Interstate Routes 79, 279, 376, and 579. Recreational facilities include one national park and two state parks.

* Indicates too few sample observations were available to compute an estimate.

(1) A value of "9,999" means the median falls in the lowest interval of an open-ended distribution. A value of "1,000,001" means the median falls in the upper interval of an open-ended distribution. (2) A value of "99" means the median falls in the lowest interval of an open-ended distribution. A value of "2,001" means the median falls in the upper interval of an open-ended distribution. (3) 2000 Median value was adjusted for inflation by 1.375247 using the CPI-U-RS. (4) There is no Census 2000 Gross Rent value because the Census 2000 universe is "Specified Renter-Occupied housing units" and the ACS universe is "Renter Occupied housing units." Since the universes are different, the data is uncomparable.

(L) Less than \$50,000. Estimates are included in total.

(D) Not shown to avoid the disclosure of confidential information. Estimates are included in total.

1 - The estimates are based on the 2012 NAICS.

2 - Census Bureau mid-year population estimates. Estimates for 2012-2014 reflect county population estimates available as of March 2015.

3 - Employer contributions for government social insurance are included in earnings by industry and earnings by place of work, but they are excluded from net earnings by place of residence and personal income. Employee and self-employed contributions are subtractions in the calculation of net earnings by place of residence and all of the income measures.

4 - The adjustment for residence is the net inflow of the earnings of interarea commuters.

5 - Rental income of persons includes the capital consumption adjustment.

6 - Includes actual employer contributions and actuarially imputed employer contributions to reflect benefits accrued by defined benefit pension plan participants through service to employers in the current period.

7 - Proprietors' income includes the inventory valuation adjustment and capital consumption adjustment.

8 - Under the 2007 NAICS, internet publishing and broadcasting was reclassified to other information services.

Note: All state and local area dollar estimates are in current dollars (not adjusted for inflation).

Note: Data as of November 19, 2015. New Estimates for 2014. Revised Estimates for 2012-2013.

October 1, 2014 Snapshot date.

Notes: Codes used for the level of education are not synonymous with years. Averages used for the level of education are the averages of codes. These codes are 1, less than high school graduate; 2, high school graduate; 3, less than bachelor's degree; 4, bachelor's degree; 5, master's degree; 6, doctor's degree. Classroom teachers employed by Intermediate Units not included.

Note: A lower level may not sum to a higher level. An individual is only counted once per LEA, regardless of the number of schools or buildings where they are employed. An individual is only counted once per county, regardless of the number of LEAs where they are employed. An individual is only counted once per state, regardless of the number of LEAs or counties where they are employed.

Note: In an effort to better match the ASARB standards for adherents, a few religious bodies changed the way their adherents were reported in 2010. This change in methodology can distort assessments on growth or decline between 2000 and 2010 for these groups. Religious Groups affected: Catholic Church, Amish groups, Friends groups, Jewish groups, the Church of Jesus Christ of Latter-day Saints, Non-denominational Christian Churches, and the United Methodist Church.

(1) Adherent Rate: The adherence rate provides the number of adherents of a particular group per 1,000 population. Based on the 2010 U.S. Decennial Population.

THE PENNSYLVANIA STATE DATA CENTER AFFILIATES, 2014-2016

The State Data Center Program is a cooperative program between states and the U.S. Census Bureau. The primary mission of this program is to disseminate Census data to the local level. The Pennsylvania State Data Center's Affiliate Program is designed to expand public access to population and economic data even further. Data Center Affiliates are PaSDC's link to many individual data users. It is estimated that PaSDC Affiliates collectively respond to 15,000 requests for data and information annually, adding their local knowledge and expertise.
